24 June Glen David

Better use this one before we have an Accountant as a President,

A guy in a bar leans over to the man next to him and says, "Want to hear an accountant joke?" The man replies, "Well, before you tell that joke, you should know that I'm 6 feet tall, 200 pounds, and I'm an accountant. And the guy sitting next to me is 6 foot 2 inches tall, 225 pounds, and he's also an accountant.

Do you still want to tell that joke?"

The first guy says, "Nope, not if I have to explain it twice."

Lessons of Marriage

At the banquet of their 25th wedding anniversary, Tom was asked to give his friends a brief account of the benefits of a marriage of such long duration.

"Tell us, Tom, just what is it you have learned from all those wonderful years with your wife?"

Tom responds, "Well, I've learned that marriage is the best teacher of all. It teaches you loyalty, forbearance, meekness, self-restraint, forgiveness and a great many other qualities you wouldn't have needed if you'd stayed single!

District Membership Director

Welcome also to DG Ian Shuey

A call has been made for volunteers for the Science and Engineering Challenge.. There is a need for up to 75 volunteers in total to cover the three days..5—7 July at Moonah to help set up the activities, explain the activities to the students, hand out material and calculate team scores

Last year it was a tremendous day of activity and excitement, with students involved in cracking crypto codes, building an "Antarctic Station", creating a hover frenzy and going on a Mission to Mars. Riverside High School qualified to represent Tasmania in the Grand Challenge, held in Bendigo in October 2009. The Grand Challenge brings together the top 16 schools nationwide and Riverside finished in overall second place.

For good food, good fellowship and the opportunity of service to others,

May the Lord's name be praised Amen

Last week a visit to the University's Radio Telescope and the Grote Reber Museum. We were all astounded by the marvels of modern science and the wonders of the Universe and the techniques used to gain information about outer space—or were we???

As one of our group said "Visit was interesting but I didn't understand a lot !

We certainly heard about mesons and black holes, the moons of Jupiter and Mars and the **Kuiper Belt** of which Pluto is a part.

We also heard of their role in detecting small wobbles on the earth's surface

All those stars but not one a rugby players.

"You know that at that frequency the waves would go straight through the ionosphere."

hero Grote Reber kicked off radio Astronomy and what's around those big dishes near the Meadowbank Winery.

Perhaps you still don't accept the answer Why?

Even if you didn't increase your knowledge of Science you now know local

Anyway, I'm warm and cosy

Calendar

- Thursday June 24** Jacob George
Depression.-What can be done? **Partner's Night**
- Sunday 26th June** Inner Wheel District Changeover Burnie
- Sunday 27 June** District Changeover Devonport
High Tide Restaurant

13 th and 14 th November	18 th and 19 th December	24 th December

- K&D pencilled in** 8,9 Jan & 12, 13 Feb

Here and There

- ◆ Glen didn't look too stressed out after being the centre of our news services on Tuesday, anyway he was off to Townsville for the weekend..
- ◆ Kerry has gained some times for Anaconda BBQ. Examine your diary to see where you can help.
- ◆ We have another box of children books to distribute—to Clarendon Vale Primary or perhaps somewhere else.
